

GABRIELLE GIFFORDS
MEMBER OF CONGRESS

July 29, 2008

Mr. Christian Karl Monrad, P.E.
4325 North Camino Colibri
Tucson, AZ 85718-6909

Dear Mr. Monrad,

Thank you for visiting me and discussing your efforts to raise awareness among Members of Congress on the issue of light pollution. This is an important endeavor.

I am very pleased with our current momentum on Capitol Hill. In addition to the recent briefings on both the House and Senate side that have raised awareness and interest among congressional staff, I will be joining with at least nine colleagues this week to send a letter to EPA Administrator Johnson insisting that he take stronger action on light pollution.

I am hopeful that next Congress will see even more action, and I am committed to continuing to promote this issue. Thank you again for your efforts. I look forward to an ongoing collaboration.

Sincerely yours,

Gabrielle Giffords
Member of Congress

Thanks so much for the visit. I look forward to continuing to working together.
